

***Economic regulation of Victoria's electricity
networks:
Role model or room for improvement?***

Presentation to Australian Institute of Energy
Economists

Melbourne

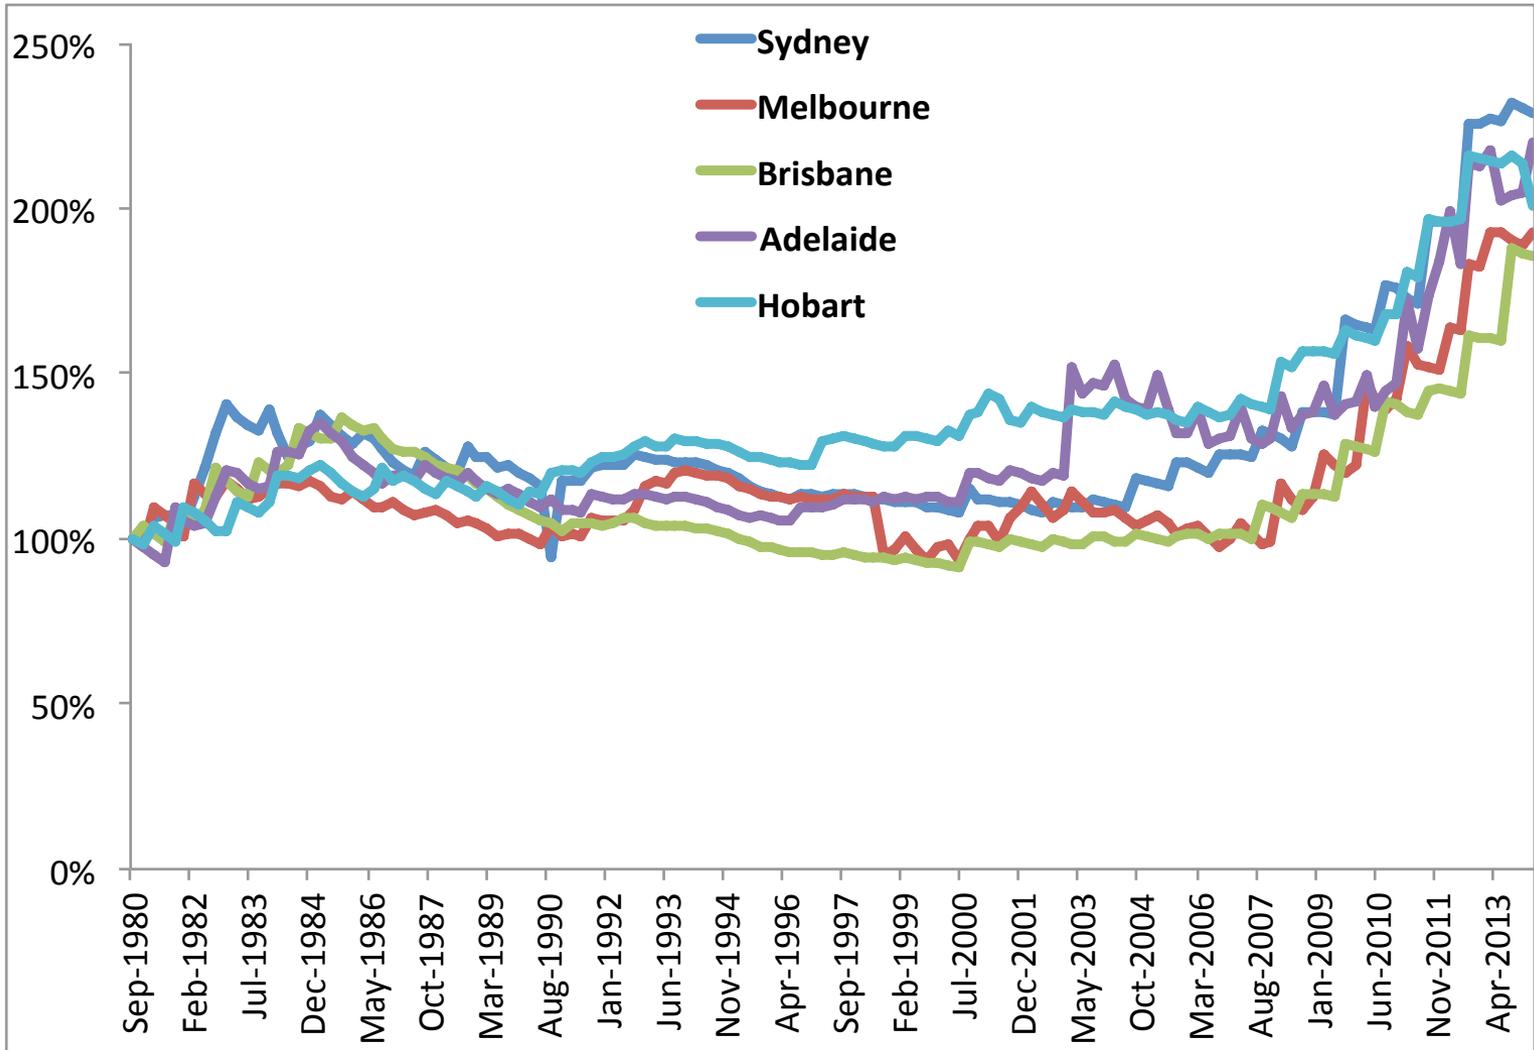

25 June 2014

Bruce Mountain
Director

Contents

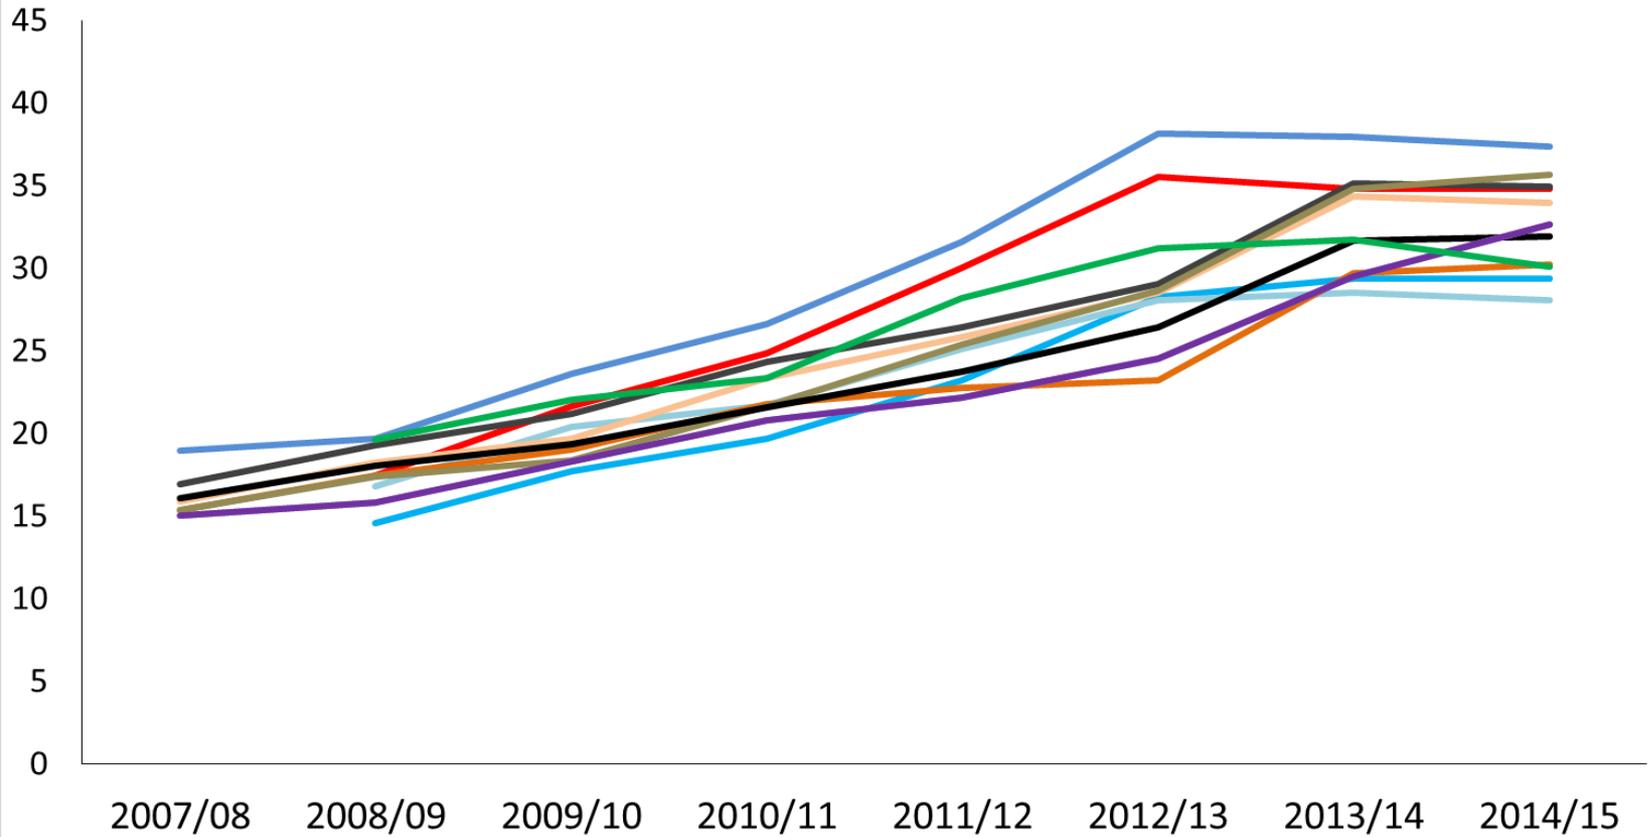

- Customer outcomes
 - Retail and network prices
 - Some residential tariff characteristics

- Industry outcomes
 - Revenues
 - Assets
 - Operating factors
 - Efficiency

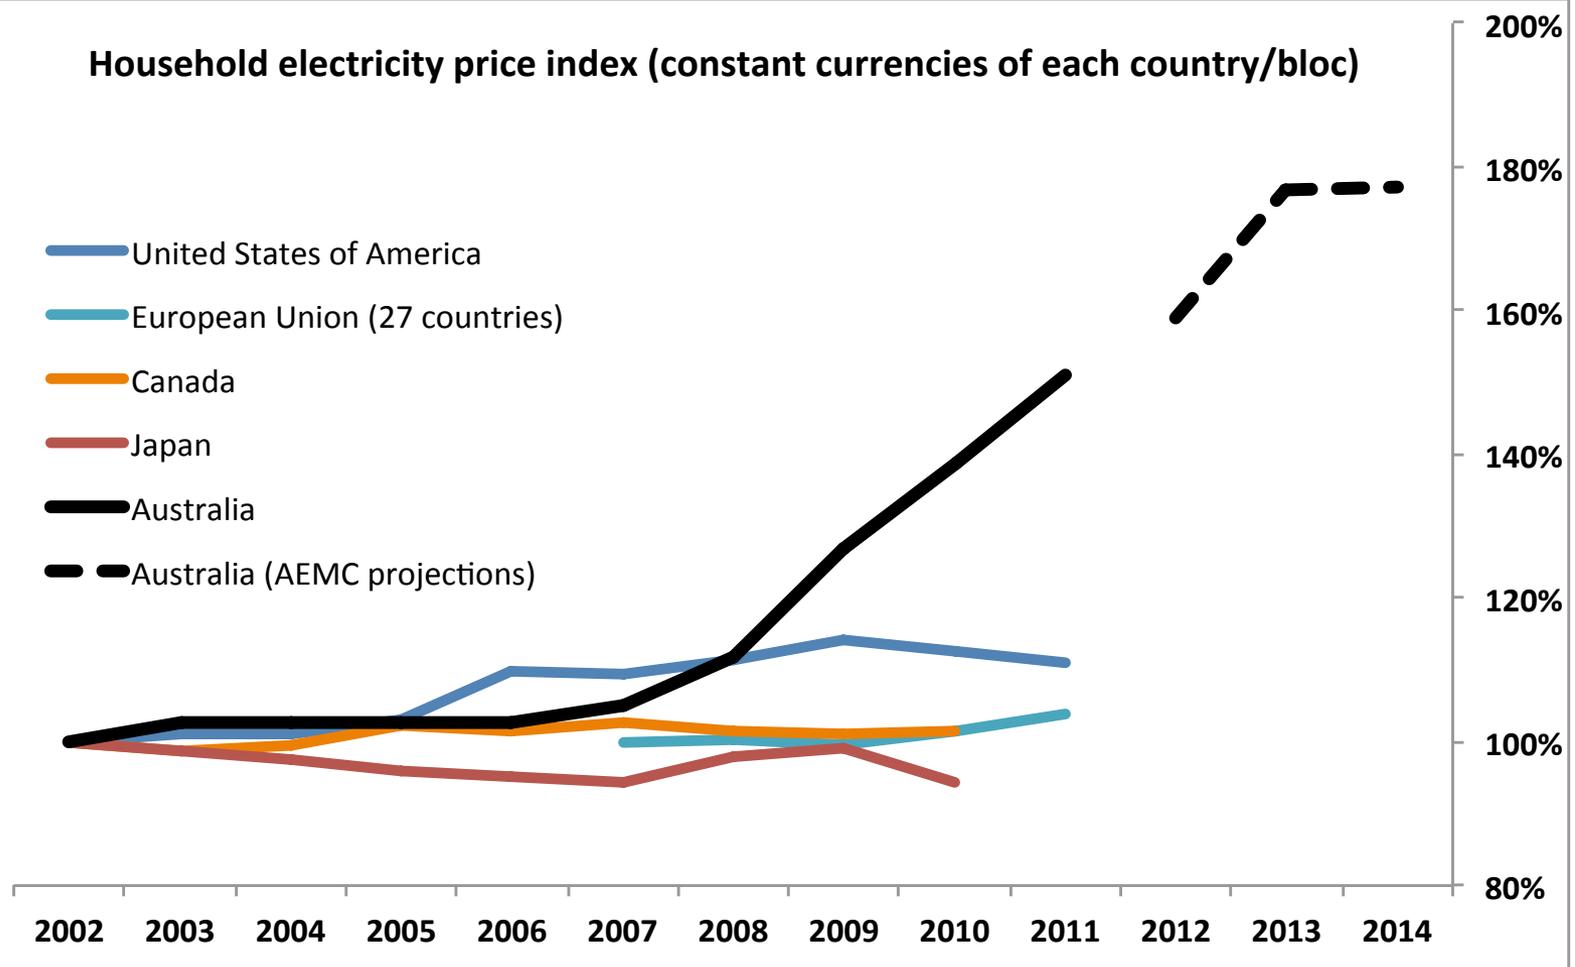

Average Retail Charge - 2007/08 to 2014/15 (regulated reference tariffs)

- SA Power Networks (SA) Ausgrid (NSW) Endeavour Energy (NSW) Essential Energy (NSW)
 - CitiPower (VIC) Jemena (VIC) Powercor (VIC) SP-Ausnet (VIC)
 - United Energy (VIC) Energex (QLD) Ergon Energy (QLD) Aurora (TAS)
- (cents per kilowatt hour)

Household electricity price index (constant currencies of each country/bloc)

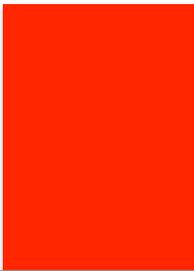

- United States of America
- European Union (27 countries)
- Canada
- Japan
- Australia
- Australia (AEMC projections)

Network services charges for average usage households (PPP-adjusted exchange rates)

Australian cents per kWh
